IP68

Waterproof LED strip start connector 10mm - 2 pins - IP68

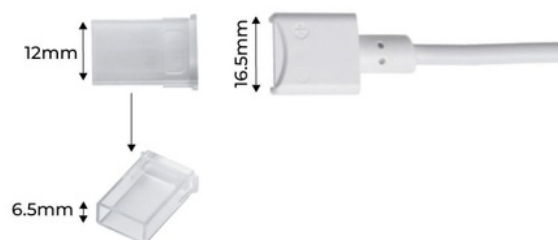

Ref. SDN10XB-2W200

Initial connector for waterproof LED strips IP68. Allows for quick and easy connection of LED strip segments without the need for tools. At one end, it incorporates the connector and at the other, the output for the positive and negative cables. For strips 10mm wide with silicone coating (total width: 12 mm). Completely waterproof, protection grade IP68, prevents the ingress of water and dust. Incorporates 2 pins. Supports strips up to 5A, 12V/24V/220V. Ideal for outdoor use.

Product data

Bredde af banen (mm)	10mm og med silikone 12mm
Certifikater	CE, ROHS
Mål (mm) LxIxh	236 x 16,5 x 6,5
Brugsfrekvens	Intensiv
Garanti	Ifølge lovbestemt garanti: 3 år
Maksimal intensitet (A)	5
IP	IP68
Materiale	Polycarbonat
Temperaturområde	-20°C ~ +40°C
Nominel spænding (V)	12V/24V/220V
Udendørs brug	Ja
