

RGB touch dimmer for 4-zone LED lighting - SUNRICHER - DALI

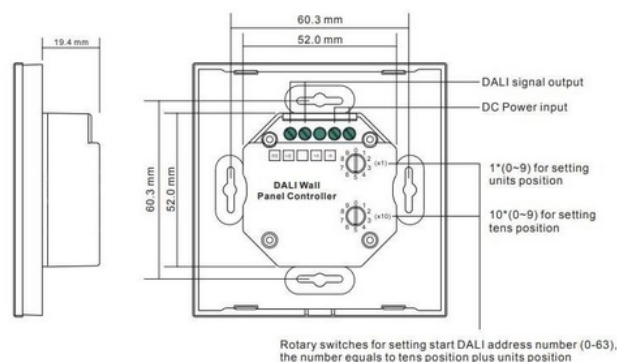

Ref. SR-2300TS-RGB-EU

The SR-2300TS-RGB is a RGB touch switch with a touch color wheel that allows for smooth, precise, and quick adjustment of color tone and brightness settings for RGB LED lighting. It can control up to 4 zones with 1 saved scene for each zone. 10 built-in color sequences are available. Multiple DALI drivers can be installed on one bus channel. This DALI controller is available in 12-24V-DC.
