

RF pushbutton mechanism Single-color dimmer switch for LED lighting 2 keys SUNRICHER - Perfect RF

Ref. SR-2833K2

The RF&WiFi LED dimmer switch SR-2833K2 is a dimmer switch with a two-button push design that offers both switching and brightness adjustment functions for single-color LED lights. The dimmer switch offers smooth and precise dimming from 0.1% to 100% without any flicker. Each controller can manage 2 zones with limitless receivers in each zone, and the control distance can exceed 20 meters. The controller can be operated via WiFi through an app on iOS and Android systems while the receivers work with the WiFi-RF converter.
