# LED Strip 24V-DC - 15W/m - Monochrome - 10mm - IP20 - 30 metres - 120 LED/m - 10cm cut

24V-DC monocolor LED strip for indoor use in a 30-meter roll. Incorporates high-quality SMD2835 LED chips with a density of 120 chips/meter, and a power of 10W/m (warm white and neutral) and 15W/m (cool white). It has the capability to make cuts every 10 cm, making it very versatile for different lighting projects. Thanks to its high color rendering index, CRI>80, it reproduces colors faithfully, similarly to natural light. It is dimmable and is available in warm white (2700K), neutral white (4000K), and cool white (6500K). It incorporates a chip that prevents voltage drop, allowing for longer installations than other low voltage LED strips.
