

Three-phase rail for LED spotlights - 1 meter bar

The 1-meter long three-phase track allows for the easy installation and repositioning of LED lights according to needs. It is made from an aluminum profile available in two colors (white or black), with 3 electrical lines that enable three independent power switches on the same track. This way, it offers great versatility for the differential on and off of luminaires, according to needs. It supports a maximum of 16A. **Includes start feeder and end cap**
