

Smart LED Strip IC RGB 5V DC - 14,4W/m - IP20 - 60 LED/m - Width 10mm - 5 meters

Ref. B1572RGB

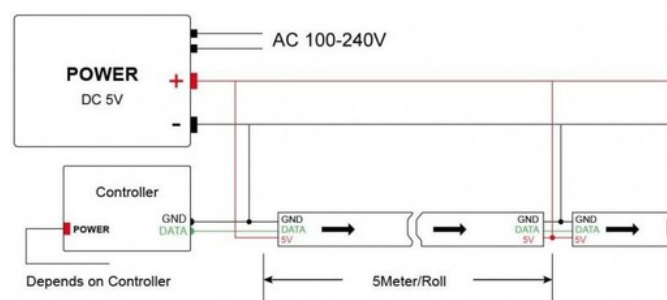

The smart RGB LED strip (IC) is designed to operate at a voltage of 5V DC. Each LED chip has its own SMD5050 light source and integrated controller (IC), allowing for individual control of each LED on the strip. This way, the WS2812B LED strip can be programmed to create complex light patterns and custom animation effects. Additionally, it is possible to cut the strip every 17 mm, allowing for great versatility. It is also possible to extend the 5-meter strip if necessary.

Product data

Track width (mm)	10
Opening angle (°)	120
Certs	CE, ROHS
Efficiency (Lm/w)	60
Guarantee	According to legal warranty: 3 years
IP	IP20
# Chips per meter	60
Power (W)	72
Nominal Voltage (V)	5V DC
Type of LED	SMD 5050, RGB IC WS2812b
Outdoor Use	No
