

## Watertight T-connection cable for 6 RGB beacons

## Ref. BA50063

Sealed connection cable to install up to 6 LED RGB spots/markers. This connector makes it easier to position outdoor lights when several are placed together. The cable has a length of 3 meters, and each T connection is separated from the others by about 50 cm. To complete the installation, we also need the RGB spots, an RGB controller, the power supply, and the remote control.

## **Product data**

Certs	CE, ROHS
Dimensions (mm) LxWxH	3000
Guarantee	According to legal warranty: 3 years
Nominal Voltage (V)	12V DC
