

Three-phase rail adapter connector for luminaires

Convert your lamps into a track lamp with the help of a three-phase track power adapter . This accessory allows you to connect lighting in a linear fashion, in 1, 2, and 3. Made from flame-retardant thermoplastic, with copper connections, measuring 68x58mm. Easy connection for the lamp cable and quick installation to the track. The track adapter lets you combine all types of LED luminaires , including spotlights, downlights, pendant lamps, and emergency lights, with a single line of power by installing a surface three-phase track . Available in white and black. Buy the rail with ref. BTT-200 (see below in related products)
