

Microwave sensor for LED hoods B8137

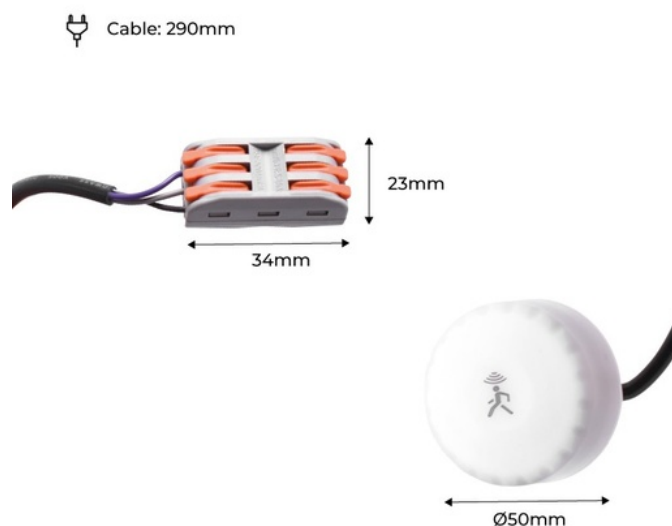

Ref. B8137-MICRO

The motion sensor operates at 10-15 V DC and has 3 modes of operation. It activates, deactivates, or enters "Standby" mode with movements and displacements within its detection range. This way, you can save energy consumption and be more sustainable. It has a protection rating of IP65, perfect for use in outdoors and indoors exposed to humidity and high temperatures. It also includes a quick connector for easy and convenient installation. Ideal for installations in warehouses, industrial buildings, offices, hallways, supermarkets, etc.

Product data

Certs	CE, ROHS
