

SIDEREUS" moon-shaped plasterboard lamp - 300x300 mm - 8.5 W

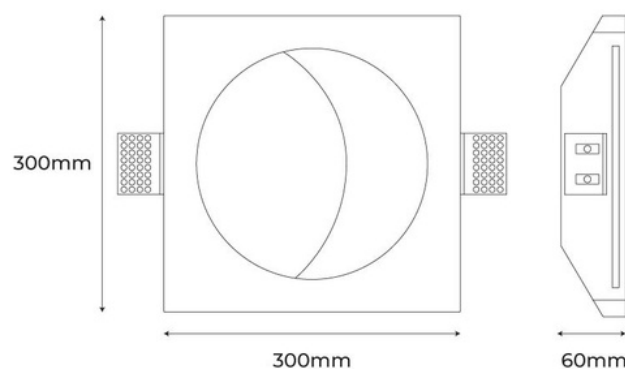

Ref. B279-M

Our lamp "SIDEREUS", with its exclusive moon-shaped design, is made of plaster and is a unique decorative piece. It is an ideal product for achieving original and harmonious environments that will not go unnoticed. It has an integrated light source with a warm tone that gently diffuses from its circular outline, highlighting its internal textures that emulate lunar reliefs. In addition to its uniqueness as a decorative element, this lamp is designed to achieve a perfect integration into the environment, as after a simple installation, it provides a visual continuity without perceptible edges. The plaster, a material also known as gypsum or plaster, besides being integrable with drywall, can be painted in the desired color, thus reinforcing the concept of integration.
