

LEDVANCE floodlight with motion sensor - 20W - ESSENTIAL range - 1900lm - IP65 - 6500K

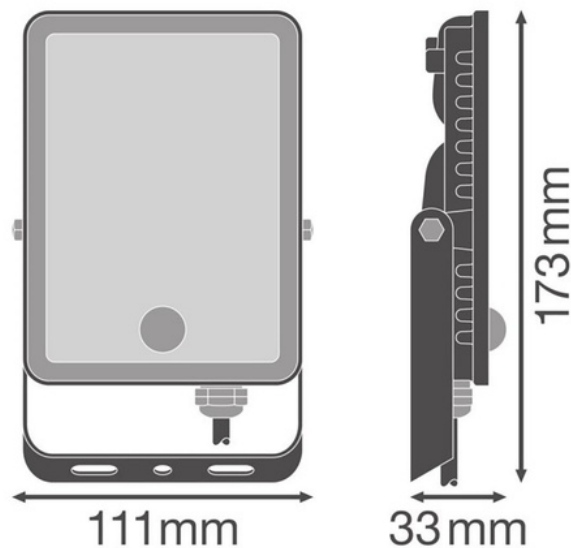

Ref. 4058075768291

LEDVANCE projector with motion sensor 20W with a compact and robust design, adhering to high quality standards. Illumination based on demand and energy savings thanks to the motion and daylight sensor. It has a power of 20W and a luminous intensity of 1900 lumens. It is an ideal product for replacing traditional floodlights. It emits light in a cool white tone (6500K). Thanks to its IP65 protection rating, it prevents the entry of water and dust, so it can be used outdoors without any issues.
