

Aluminum profile integration plaster/plasterboard for external corner - LED strip up to 10 mm - 2 meters

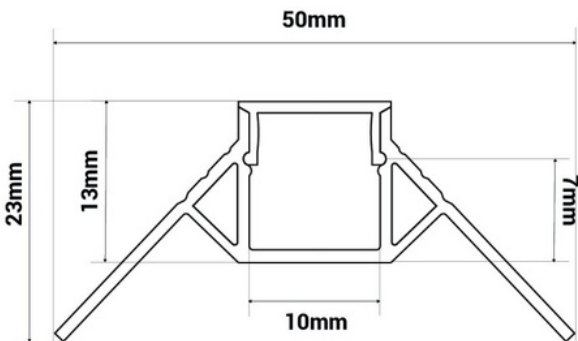

Ref. BPERFALP070-R-N

The integrable aluminum profile for LED strips is the perfect solution for installing LED strips up to 10mm in exterior corners in a professional and elegant way. Made with high-quality aluminum, it allows for the creation of modern environments with indirect and elegant lighting, thanks to its diffuser available in opal white or black shades. It is equipped with punched fins that facilitate its insertion before the finishing layer used to ensure a perfect grip on the wall. Suitable for drywall or plaster. ****Includes: 2-meter profile + diffuser****
