

Function Introduction

4 in 1 LED Controller - 12-48V DC - TRIAC + 0/1-10V + DALI + PUSH

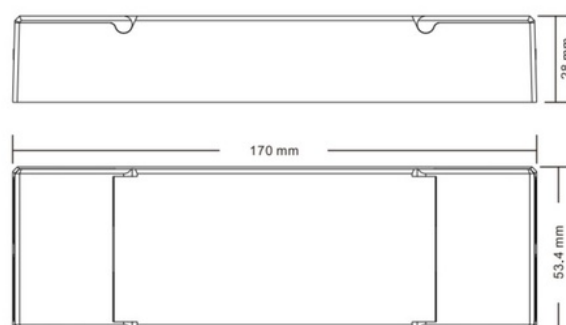

Ref. SR-2303P (4IN1)

The 4-in-1 LED Strip Controller is a multifunctional device that features a switch that allows you to switch the regulation interface between: TRIAC, 1-10V, DALI, and PUSH. It accepts an input voltage of 12-48V and supports a maximum of 20A. Incorporates protection against short circuits and overloads.

Product data

Certs	CE, ROHS
Dimensions (mm) LxWxH	170 x 53.4 x 28
Guarantee	According to legal warranty: 3 years
Maximum intensity (A)	20
Temperature range	-20°F to +50°F
Control system	TRIAC, DALI, PUSH, 0-10V / 1-10V
Nominal Voltage (V)	12-48V
