DMX touch control panel - 4 zones - RGB

Ref. SK-T13

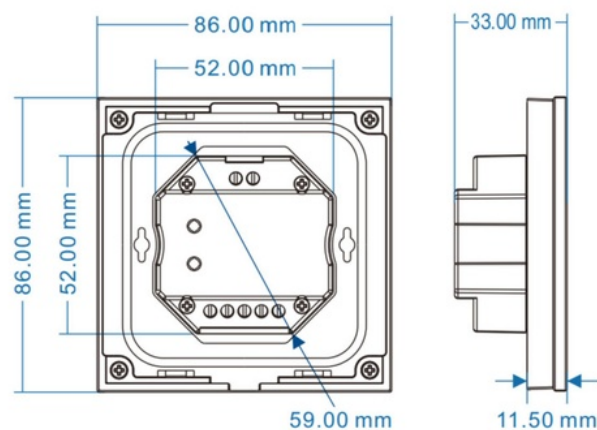

4-tsooniline integreeritud DMX puutepaneel pakub täielikku valgustuse juhtimist 100-240V RGB LED valgustite jaoks. See võib toimida kui DMX512 meistriks või kui RF kaugjuhtimispuul. Its elegant high-sensitivity glass touch interface includes a color wheel for precise adjustments, along with touch keys with LED indicators. It allows you to adjust brightness, saturation, speed in scenes, and dynamic modes, etc.
