

RGB/RGBW SPI controller for Smart IC LED strips 5-24V - RF 2.4G

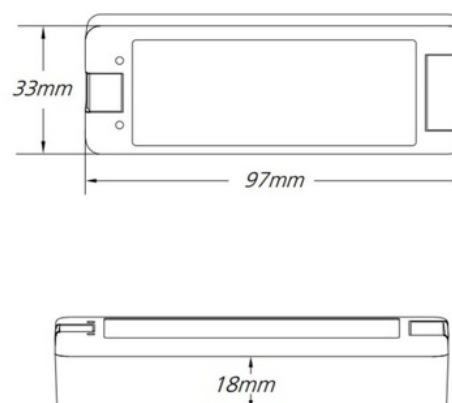

Ref. SK-SC

RGB LED pixels controller with SPI output compatible with 47 types of digital LED strips (IC) RGB or RGBW. Offers 40 dynamic modes with precise control over colors and lighting effects. Possesses a wide range of input voltage (5-24V) and can control up to 1024 pixels. Compatible with RF RGB/RGBW remote control (Reference: SK-R9)

Product data

Certifikati	CE, ROHS
Povezanost	RF
Kontrola boje	RGB, RGBW
Jamstvo	5 godina
IP	IP20
Raspon temperature	-30°C ~ +55°C
Nomin tension (V)	5-24V
Vanjska upotreba	Ne
