

## LED lente 12V-DC 72W platums 5mm multicolor RGB IP20 (SMD3535 72ch/m) Rullis 5 metri

### Ref. B1547-5-IP20

Augstas spilgtuma RGB LED lente, 12VDC 72W 5 metru ruļļos. SMD3535 72W (14.4W/m) 12V DC Augsts spīdums IP20 120 grādi PCB platums 5mm

### Product data

|                        |                                        |
|------------------------|----------------------------------------|
| Trases platums (mm)    | 5                                      |
| Atvēruma leņķis (°)    | 120                                    |
| sertifikāti            | CE, ROHS                               |
| Garantija              | Saskaņā ar likumisko garantiju: 3 gadi |
| IP                     | IP20                                   |
| Jauda (W)              | 72                                     |
| Nominalā sprieguma (V) | 12V DC                                 |
| LED tips               | SMD 3535                               |
