

Buiten LED schijnwerper 100W RGB+CCT | MI LIGHT

Ref. FUTT07

IP65 waterproof LED projector. Spotlight with a consumption of 100w and a luminous intensity of 7500-8000 lumens. High luminous efficiency of 85lm/W. These LED Spotlights have three color alternatives: RGB multicolor, cool at 6500 Kelvin degrees, and warm at 2700°K. With gradual color change, it allows for millions of color gradations that adapt to any environment and situation. It is compatible with all Mi Light RGB+CCT controllers. Dimmable spotlight that can be connected to the home automation network or via WiFi and Smartphone to communicate with the controllers and remotely adjust both brightness and color or create programmed actions. Mainly used in the lighting of façades, walls, doors, signs, pergolas, billboards, and also indoors.

Product data

Openingse_angle (°)	160
Certificaten	CE, ROHS
Dimbaar	Ja
Efficiëntie (Lm/w)	85
Frequentie (Hz)	50 - 60
Gebruikfrequentie	Intensief
Projector Gamma	RGB
Garantie	3 jaar
IP	IP65
Kelvin (K)	2700K~6500K
Lumen (Lm)	7500~8500
Sensor	Nee
Nominale Spanning (V)	AC100-240V
Buiten gebruik	Ja
