

## LED trak 12V-DC 50W 10mm monokromatski IP20 (SMD2835 60ch/m) Rolo 5 metrov

Enobarvni LED trak na 12V DC, skupna moč 50W, širina in svetlobni kot 120°. Na voljo v rdeči, zeleni in modri barvi  
12V DC 50W (10W/m) 5 metrov Širina: 10 mm Rez: 50mm IP20 300 x SMD2835

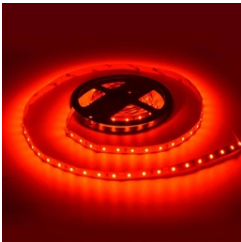

### Product data

|                      |                                                        |
|----------------------|--------------------------------------------------------|
| T° svetlobe          | Modra (uporabiti), Zeleno (uporabiti), Rdeča (uporabi) |
| Lepljivo             | 3M                                                     |
| Širina steze (mm)    | 10                                                     |
| Potrdila             | CE, ROHS                                               |
| Dimenzije (mm) LxIxh | 5000x10                                                |
| Prilagodljivo        | Da                                                     |
| Razdalja reza (mm)   | 50                                                     |
| Frekvenca (Hz)       | 50 - 60                                                |
| Garancija            | Po zakonski garanciji: 3 leta                          |
| IP                   | IP20                                                   |
| Nosilci/metro        | 60                                                     |
| Moč (W)              | 70                                                     |
| Moč/m (W/m)          | 10                                                     |
| Nomin Spannung (V)   | 12V DC                                                 |
| Vrsta LED            | SMD 2835                                               |
| Tonaliteta           | Modra, Rdeča, Zelena                                   |

|                      |       |
|----------------------|-------|
| Zunanja raba         | Ne    |
| Življenjska doba (h) | 25000 |
